

Student Name:

THE UNITED REPUBLIC OF TANZANIA
PRESIDENT'S OFFICE
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT
HANDENI DISTRICT COUNCIL
FORM ONE JOINT TERMINAL EXAMINATION-MAY 2025
COMPUTER STUDIES

wazaelimu.com

Time: 2:30 Hours

INSTRUCTIONS

1. This paper consists of sections **A, B** and **C** with a total of **ten (10)** questions.
2. Answer **all** questions.
3. All answers must be written in **black** or **blue** ink.
4. Write your **Name** at the top right corner of every page.

SECTION A (15 Marks)

1. For each of the following items (i-x), choose the best answer from among the given alternatives and write its letter in the space given below.
 - i. Which of the following best defines "Computer science"?
 - A. The study of how to use computer for entertainment
 - B. The study of computers, their functions, and how they can solve problems
 - C. The practice of typing faster on a keyboard
 - D. The use of internet for communication.
 - ii. Which of the following is an application area of Computer Science?
 - A. Agriculture
 - B. Construction
 - C. Healthcare
 - D. All of the above
 - iii. Why is Computer Science important in modern society?
 - A. It reduces human interaction
 - B. It helps in solving complex problems efficiently
 - C. It makes people lazy
 - D. It increases paper usage
 - iv. Which of the following fields is closely related to Computer Science?
 - A. Medicine
 - B. Information Technology (IT).
 - C. Geology.
 - D. History
 - v. Which concept of Computer Science focuses on protecting information from unauthorized access?
 - A. Networking
 - B. Cybersecurity
 - C. Database Management
 - D. Web Development
 - vi. One of the applications of computer science in education is:
 - A. Playing video games
 - B. Online learning platforms
 - C. Watching movies
 - D. Listening to Music
 - vii. The branch of computer science that deal with programming languages is:
 - A. Data base management
 - B. Computer networks
 - C. Software Engineering
 - D. Hardware Engineering
 - viii. The process of solving problems using computers is called:
 - A. Data entry
 - B. Problem-solving algorithm
 - B. Typing practice
 - D. Graphics design.
 - ix. An example of practical application of computer science in business is:
 - A. Internet banking
 - B. Reading books
 - C. Driving a car
 - D. Cooking food
 - x. The teacher of computer science taught students of form one the importance of computer science. As the computer science student, why is computer science important in today's world?
 - A. It increases paper usage

Student Name:

- B. It slows down communication
- C. It enhances problem-solving skills and technological development
- D. It is only used by scientists

Answers

i	ii	iii	iv	v	vi	vii	viii	ix	x

2. Match the following computer generations in LIST A with its associated technology in LIST B.

LIST A	LIST B
(i) First generation computers	A. Very Large-Scale Integration
(ii) Second generation computers	B. Vacuum tube technology
(iii) Third generation computers	C. Transistor technology
(iv) Fourth generation computers	D. Microprocessor design technology
(v) Fifth generation computers	E. Integrated circuits technology

Answers

LIST A	(i)	(ii)	(iii)	(iv)	(v)
LIST B					

SECTION B (70 Marks)

3. Nowadays computers are used everywhere in the world and some people depend on computers to make sure they work hard and get some basic needs in the society. You are a student of form one with the knowledge about computers, Explain briefly five characteristics of computers.
4. The teacher of computer science taught students the application areas of computer science. As the student of form one with the knowledge of computer science explain how computer science is important in Education sector. (Explain five (05) points)
5. Form Four students were having conversation in their class, discussing various things concerning the use of computers and its significance one student stood up crashes the presence of computers because they have no use in this world. As the student of form one with the knowledge of computer science explain to her, living in the world without Computer Science. Use five points.
6. Identify and explain any five (5) fields related to Computer Science.
7. Study the following computer hardware given and answer the questions that follow:

Student Name:

(a) Name the computer hardware accessories labelled 1-6.

- (1) _____
- (2) _____
- (3) _____
- (4) _____
- (5) _____
- (6) _____

(b) State the function of each hardware labelled 1, 2, 4 and 6.

- (1) _____
- (2) _____
- (4) _____
- (6) _____

8. (a) How can you define the term Autonomous system?

(b) Mention four Examples of autonomous systems you ever across with

9. Your school is opening a new computer lab. The Head of ICT has asked you to explain to new students how they will interact with the computers.

(a) Explain what input devices and output devices are.

(b) Give two examples of input devices and two examples of output devices.

(c) Why is it important for a computer to have both input and output devices?

SECTION C (15 Marks)

10. Computer science has diverse and far-reaching applications across numerous fields. Briefly explain the application of Computer Science in each of the following fields.

- (i) Banking
- (ii) Agriculture
- (iii) Healthcare
- (iv) Defense
- (v) Transportation
